

Carmen Maar

Business Technology Student

PROFILE

Enthusiastic and driven student with a passion for software development, currently seeking a traineeship program to further develop skills and knowledge in the field. Proficient in design, I excel in creating visually captivating content and intuitive user interfaces, blending creativity with functionality seamlessly. With hands-on experience managing social media platforms, I possess a deep understanding of digital marketing strategies and consumer behavior. Eager to contribute and learn in a dynamic environment while pursuing academic excellence in my fourth semester.
